Data structure to display the individual player stats for cricket players.

Data field identifier	Data type	Example	Your reason for using this data type
player_name	String	MS Dhoni	Names may contain letters and any other characters.
birth_date	String	July 7, 1981	Birth date may contain letters and any other characters.
age	Integer	38	Age contains numeric integer
playing_role	String	Wicketkeeper batsman	Playing role may contain letters and any other characters.
batting_style	String	Right-hand bat	Batting style may contain letters and any other characters.
fielding_position	String	Wicketkeeper	Fielding position may contain letters and any other characters.
bowling_style	String	Right-arm medium	Bowling style may contain letters and any other characters.
tests_played	Integer	90	Test matches played contain numeric integer
tests_inns	Integer	144	Test innings contain numeric integer
tests_runs	Integer	4876	Test runs scored contain numeric integer
tests_bat_avg	Float	38.09	Test batting average contain decimal values
tests_HS	String	224	Test Higest score contains numeric integer and other characters
tests_bowl_avg	String	-	Test bowling average may contain decimal values and other characters
tests_wic	String	-	Test wickets taken may contain numeric integer and other characters
tests_best	String	-	Test best bowling figures may contain numeric integer and other characters
odi_played	Integer	350	ODI matches played contain numeric integer
odi_inns	Integer	297	ODI innings contain numeric integer
odi_runs	Integer	10773	ODI runs scored contain numeric integer
odi_avg	Float	50.57	ODI batting average contain decimal values
odi_HS	String	183*	ODI Higest score contain numeric integer and other characters
odi_bowl_avg	String	-	ODI bowling average may contain decimal values and other characters
odi_wic	String	1	ODI wickets taken may contain numeric integer and other characters
odi_best	String	-	ODI best bowling figures may contain numeric integer and other characters

T20_played	Integer	98	T20 matches played contains numeric integer
T20_inns	Integer	85	T20 innings contain numeric integer
T20_runs	Integer	1617	T20 runs scored contain numeric integer
T20_avg	Float	37.6	T20 batting average contain decimal values
T20_HS	String	56	T20 Higest score contains numeric integer and other characters
T20_bowl_avg	String	-	T20 bowling average may contain decimal values and other characters
T20_wic	String	-	T20 wickets taken may contain numeric integer and other characters
T20_best	String	-	T20 best bowling figures may contain numeric integer and other characters
